## Experience With

---

HTML  
CSS  
Javascript

Bootstrap  
React  
Node

PostgreSQL  
MongoDB  
Git

## Projects

---

### Facial Recognition App

Web app that uses the Clarifai Face Detection API, to detect faces on images you share a link to.

-- Skills Used --

*React, PostgreSQL, Node*

### Purpose Driven Worship

A project I built for a new up and coming church.

-- Skills Used --

*HTML, CSS, JS*

### Restaurant Page

Project is a simple web app with tab navigation.

It is a single page application

-- Skills Used --

*HTML, CSS, JS, Webpack*

### Slipstream Racing

Website for a sim racing league. I used wordpress to create the site.

-- Skills Used --

*HTML, CSS, JS, Wordpress, Elementor*

### Library App

This is a project I built. It is a library web application. You can add and remove books and it stores them in local storage.

-- Skills Used --

*HTML, CSS, JS*

### Etch-a-Sketch

Neat little project playing with divs and the DOM. We all remember these as kids!

-- Skills Used --

*HTML, CSS, JS*
