## Experience With

| | | |
|---|---|---|
| HTML | Bootstrap | PostgreSQL |
| CSS | React | MongoDB |
| Javascript | Node | Git |

## Projects

### Facial Recognition App
Web app that uses the Clarifai Face Detection API, to detect faces on images you share a link to.
*-- Skills Used --*
*React, PostgreSQL, Node*

### Slipstream Racing
Website for a sim racing league. I used wordpress to create the site.
*-- Skills Used --*
*HTML,CSS,JS,Wordpress,Elementor*

### Purpose Driven Worship
A project I built for a new up and coming church.
*-- Skills Used --*
*HTML,CSS,JS*

### Library App
This is a project I built. It is a library web application. You can add and remove books and it stores them in local storage.
*-- Skills Used --*
*React,PostgreSQL,Node,Bootstrap*

### Restaurant Page
Project is a simple web app with tab navigation. It is a single page application
*-- Skills Used --*
*HTML,CSS,JS,Webpack*

### Etch-a-Sketch
Neat little project playing with divs and the DOM. We all remember these as kids!
*-- Skills Used --*
*HTML,CSS,JS*
